Boande these there are five other handsome structures in course of orection on Broadway, one on Filgrim's pathway, and altogether in different parts of the Grove about tourty cottages, most of them first class, are either in process of crucium or have recently been finished. The association, too, is doing its share in this line. A new summer bouse at the took of Ocean pathway, where the surfmeetings are held, has been built. The old one was demolished during the heavy storms of last winter; a siorchouse in connection with a lumber yard has also been put up by the association on Central weens. The foundation of the Memorial Park Vase has been raised three teet and greatly improved in appearance and evergreens planted in the park. Webb and Abbott avenues are being opened through Central Park to the ocean, and Fielcher Lake to the low ground at Wesley Lake through divers streets and avenue. A full supply of water will thus be obtained in conse of fire. The fail of the greened will maure pressure enough to throw a stream o

Mr. Ross has twenty-five large bathrooms, six feet by seven, for hot and cold water baths, also a number of large family bathrooms. He has over four hundred rooms all told. The office has been doubled in size, enabling him to take care of private saist. A large and commedieus pavilion and restaurant is being rapidly pushed forward to completion, and will be under the personal supervision of Mrs. Ross. The flucus sous water tountain on the coast will be in this establishment. It cost \$1,500, and was on exhibition at the Centennial. One of the most essential additions to this establishment is a check room, where excursionists or travellers may leave their package, whatever it may be, for any length of time during the day for only five cents. From the root of this restaurant, as well as from the room itself, which is built over the bathing houses, a fine lockout will be afforded on the ocean and upon the bathers as they tumble and frolte in the breakers. In this establishment means at all hours may be had and refreshments generally to order.

THE COWHIDE.

HOW IT WAS WIELDED BY AN INDIGNANT PATHER-A LIVELY SCENE AT THE GRAND CENTRAL HOTEL.

The guests at the Grand Central Hotel were yesterday morning treated to an unusual delicacy for their breakinst, which was furnished by one of the guests without consultation with the proprieter, and was not, therefore, on the buil of fare. It was no less than the cowbiding of a man at least sixty years old by a gentleman of about the same age. The aggressor in the little passage at arms is a well known and r specied mercuant of this city, who has resided for a considerable time, with his family, at the botel mentioned, as has also the recipient of the thrashing, who is a single man. The latter was sented at the table at his usual hour, when the former entered the room,

THE CASTIGATION.

The waiters stared at the unusual article, but its wielder struce rapidly up the room until he reached the seat of his chemy, when he began beledding him over the head and shoulders, while his son stood by evincing keen enjoyment, evidently ready to continue the work so soon as the father should grow weary. He was disposed to resent any attempt at interference on the part of outsiliers, and had he had the strength he would probably have secured his latter from all interruption. The gray barrs of the victim, however, secured him prompt sympathy, and as soon as the guests realized what was going on they sprang up. The latter shricked and the men swore, and before the angry castigator had had lead the work, and before the angry castigator had had latted himself there was a general disturbance, in which a lew dishes were smashed and much loud talk included in, and at the end of it he lound nimself and his son separated from the object of their wrath by a dozen or more guests and watters. To these the mercuant explained the explanation every one present was perfectly willing to allow him to resume his operations with the cowhide. The cowhided man, however, was not among those present, he naving escaped down stairs. THE WHY AND THE WHENEPORE.

The explanation was that his little daughter, only ten years old, had been spoken to several times by the electry man, who had seen her in the elevator and around the halls, and who had manuged to secure her friendship by presents of candy and pennies. On Friday evening he are defined to go to his room to see some pretty pretters which he had, and she had gone with him readily. When they reached the room he had closed the door and made certain proposals which she did not understand but which startied and frushmend her even in her ignorance. He immediately lollowed this up with an attemp

sales for unpaid assessments for opening St Nichola avenue and Manhattan street, confirmed May, 1869, and for the opening of Morningside Park, of cortain property belonging to James A. Deering and Nancy Parker, situated on Broadway, Manbattan atreet and 1324 street. The cases were argued several months since by Mr. Deering for the petitioners and Corporation. Counsel Whitney for the city. Several important questions in assessment law were pre-sented—first, as to whether sales for assessments for street openings could be vacated in a summary way upon petition, without suit; and, secondly, as to whether assessments of this nature required anything more than confirmation by the Supreme Court to make them a lieu upon the property assessed. The Corporation Counsel contended that the set of confirmation by the Supreme Court was final and conclusive, and that nothing furtner was needed to establish them as a lieu, and no proceeding by petition could be sustained to vacate the sale. In the opinion of Judge Lawrence these objections are not well taken, and are overfued, the bolds that an assessment is not a lieu upon property until entered in the office of the Clerk of Arrears, and that to advertise and to sell such property as under a lieu from the time the assessment is confirmed is a substantial error. This decision is confirmed is a substantial error. This decision is confirmed to the property as the far prosecuting these proceedings, as it establishes a precedent as to the procedure is such matters and involves sales made by the city since the year 1853, involving several millions of dollars. upon petition, without suit; and, secondly, as to

DIVORCE BULLETIN. Barbara Kleinknecht, who has brought a suit for limited divorce against her busbaud, Henry Kleinknecht, seems to have considerable trouble in getting her alimony and counsel fee awarded to her by the Court. See has accordingly made a motion, before Judge Sedgwick, in the Superior Court, to have him punished for coatempt of Court in refusing to obey the order. She says that she has to support her three minor children, and that by reason of the nou-payment of the counsel fee of \$100 her counsel have abandoned the further prosecution of the case. Mrs. Kleinknecht further prosecution of the case. Mrs. Kleinknecht further states that her husband is employed in a steam sawmill at \$18 a week, and that for the purpose of annoying ner nas, among other misotherous acts, made a chattel mortgage on her household furniture, which never was his property, but was always her soparate property, and that of late purios have called and threatened a foreclosure of such mortgage. Judge Sedgwick granted the arder applied for.

In the case of Fhobse Wharton, against Joseph C. Wharton, in which a decree of diverce was granted in 1809, a motion was made before Judge Sedgwick in the Superior Court, to modify such decree by directing an order dempelling the defendant to pay \$10 per week to the pis-intiff for the support of herself and cuitd and also \$200 counsel fee. Judge Sedgwick in a decision rendered yesterday holds that the Court has no power to grant the relief asked.

TRIAL BY JURY.

Recently George Morgan was committed by Judge Kilbreth for pesti larceny. Mr. William F. Howe, the prisoner's counsel, has raised in this case the important question affecting the jurisdiction of the Court of Special Sessions and entirely changing the trial of misdemeanors. The case came up yesterday for argu. ment before Judge Potter, in Supreme Court, Chambers, Mr. Howe insisted that the accused and every bers, Mr. Howe insisted that the accusod and every one charged with a criminal offesco were, by the constitution, entitled to trial by jury. He claimed in his argument that no statute could deprive a defendant of this prerogative, and cited the cases of People vs. Kennedy in 2 Parker's Criminal Reports, and People vs. Carroll in 3 Parker's Reperts; People vs. Riley in 5 Parker's Reports, and also in the case of People vs. Hill, reported in the Twentieth New York Reports, where the Court of Appeals held that even in a case where one was charged with intoxication the priconer was one was charged with intoxication the priconer was the Court of Appeals held that even in a case where one was charged with intoxication the priconer was the Court of Appeals held that even in a case where the Court of Appeals held that even the private that in his case the prisoner is entitled to a trial by jury. Of this right he cannot be deprived; that had he by his own voluntary act required a trial by a Court of Special Sessions or had he given or estered into a recognization to appear had he given or entered into a recognization to appear at the opecial Sessions his right to such a trial migh be lost, but that he has done neither; that by section 3, article 1 of the constitution, it is provided, "The trial by jury in all cases in which it has been hereto fore used shall remain inviolate forever;" that the offence with which the prisoner is charged is not to be tried aummarity, but it is to be tried into all other criminal offences, and that the prisoner is to be tried before a jury. Judge Potter said he would render his decision may revolutional all the proceedings in the Court of Special Sessions.

A MINISTER THOUGHT INSANE. The latest case of alleged lunacy is that of John petition for the appointment of a commission de innatico inquirendo was presented to Judge Van Hoesen in the Court of Common Pleas by Robert Rogers, the son-in-law of the alleged lunatic. Mr. Rogers says that his father-in-law has been insune for the past three weeks, and is incapable of conducting his own affairs. In addition to the petition of Mr. Rogers William Tod Helmuth, a physician, makes an affidayit, in which he states that upon a personal examination of Mr. Dowling he found him to local aborting under mental aberration relative to his lature and his friends, and that he was suggesting impractionable and unnecessary plans, and was generally it such a state of mental derangement that it was absolutely necessary to place him under proper restraint. Dr. George E. Beither also makes an affidayit, in which no states that grounds for believing bowling insone are based upon an examination in which he total that his mental aberration principally turned upon his wealth, which he considered immense; upon plans which were to bring him immense amounts of money, but which were incoherent and preposterous. The Doctor says further that he was clearly incapable of managing his affairs and exhibited algaes of great recklessness in spending money and wasting his property. Judge Van Hoezen upon this state of feets granted toe writ grayed for. of Mr. Rogers William Tod Helmuid, a physician

RAILROAD TROUBLES.

THE MONTCLAIR AND GREENWOOD LAKE BAIL WAY-JUNIOR BONDHOLDERS OBJECT TO THE

A circular was issued a few days ago in relation to the reorganization of the Montelair and Greenwood Lake Railway Company. It purports to come from a committee appointed for that purpose by the bondholders, and attached to it are the names of Cyrus W. Field as chairman and George T. Stearns as secretary. The report recommends the following plan:-To extend the road from Jersey City to Kingston, N. Y., a distance of 102 miles, under the name and title of the New York and Albany Railway; the capital stock to be \$1,500,000, and that bonds be issued to the extent of \$2,000,000, to be apportioned as fol-

Toward construction of the new road, twenty-500,000 six miles. \$150,000
To the Walkill, cash \$170,000
To the Walkill, bonds \$470,000 620,000 To the treasury for reorganization expenses and contingent needs.... 31,000 Total issue of bonds.....\$2,000,000

The cost of imprevements on the line and new equipments will be \$900,000. For this purpose and for the protection of the security hosters there is available \$1,500,000 in stock and \$750,000 in bonds. It is proposed to give the holders of the obligations of the company the privilege to take this reserved issue of stock and bonds in proportion of two of stock to one of bonds, upon the following terms:—The bonds, at par, in cash; the stock, in second mortgage bonds of the Montclair and Greenwood Lake Ratiway Company, ninety per cent; in cash, ten per cent. The money to be called for as requisite, in not less than

four equal monthly payments. This option to expire August 1, 1878.

meney to be called for as requisite, in not less than four equal monthly payments. This option to expire August 1, 1878.

Not satisfied.

There seems to be great dissatisfaction among the junior bondholders on account of this report, and, in order to find out the feeling which was reported to exist among this class, a Harab reporter interviewed Mr. William P. McDowell, who represents a majority of the junior bondholders, and from him obtained statements from the first steps taken by the bondholders to reorganize the road. He said that at a meeting of the wondholders held June 13 a resolution was adopted that a committee of eight and the cnairman be appeinted to draw up a plan of reorganization. This resolution was subsequently amended so as to make the committee course of two first mortgage bonds, who are parties to the foreclosure proceedings now in progress, and five to be appointed from among the holders of the junior securities, and that those gentlement to requested to meet and agree upon a plan of reorganization—which shall fairly recognize the junior securities—and to report at a luture meeting. This amendment was adopted.

Mr. McDowell says that a plan of reorganization is now being circulated among the bondholders claiming to have the indersoment of this committee, and that this plan requires each holder of a Montoniar and Greenwood Lake Railway Company second mortgage bondholder has a plan of reorganization of slook, and second, 500 for a \$500 bond. Kvery second mortgage bondholder must invest \$600 in cash for each \$1,000 bond he now holds or lose it. The committee do not seem to think well enough of their plan to sign it, and the bondholders, in his opinion, will think less of it. The persona interested in this plan, he says, attempt to make it attractive by the delusive words and the bondholders, in his opinion, will inhib less of it. The committee are in the property. This option to expire August 1. Of the gentlemen representing the first mortgage bondholders is not present to this committee and is

clines to serve. Mr. A. W. Etilott spirroved the plan under a matske and will not pay his assessment under it.
